PROFESSIONAL SUMMARY

BCA graduate with a strong foundation in Full Stack Web Development (**MERN Stack**). Skilled in developing responsive web applications using **React.js, Node.js, Express.js, MongoDB, MySQL, JavaScript, HTML, and CSS**. Passionate about solving real-world problems through clean, scalable code and eager to begin a career as a Software Developer in a growth-oriented organization.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C, C++ (OOP)

Frontend: HTML5, CSS3, React.js

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Tools: Git, GitHub, VS Code

Core Concepts: REST APIs, CRUD Operations, Authentication & Authorization, Responsive Web Design, Deployment

PROJECTS

Skill Swap Website | MERN Stack (React.js, Node.js, Express.js, MongoDB)

- Developed a full-stack Skill Swap platform using the MERN Stack with a responsive user interface.
- Implemented JWT-based authentication, bcrypt password hashing, and role-based authorization for secure user access.
- Designed, developed, and tested 15+ RESTful APIs for user management, authentication, and skill exchange features.
- Integrated MongoDB Atlas for cloud database management and optimized CRUD operations.
- Resolved CORS and deployment issues while hosting the frontend on Vercel and backend on Render.
- Managed source code using Git and GitHub with version control best practices.

Personal Portfolio Website: HTML5, CSS3

- Designed and developed a responsive portfolio website showcasing skills, education, projects, and contact details.
- Built a clean, mobile-friendly interface following responsive design principles.

SOFT SKILLS

- Problem Solving
 - Teamwork
 - Communication
 - Analytical Thinking
 - Quick Learner
 - Adaptability
 - Time Management
-
